

THE UNIVERSITY OF BRITISH COLUMBIA PARKING & ACCESS CONTROL SERVICES

Hello. This is to inform you that Doug Mitchell Thunderbird Arena will be hosting the Davis Cup on Friday February 10 to Sunday February 12, 2012 with 5,000 attendees expected in each day. The UBC Parking Department is presently working with the organizer to facilitate parking for this prestigious, large event. This event will place a large demand on the Thunderbird Parkade and surrounding surface lots from approximately 11:00am to 10:00pm during those three days. We expect to see high volume of traffic along East Mall, Wesbrook Mall, Thunderbird Blvd, and Agronomy Road during game times. In anticipation of filling to the capacity of the Thunderbird Parkade, the overflow traffic will be sent to the surrounding surface lots, such as the B4 & O Lots, with contingency of using the West Parkade. Due to the magnitude of this event, lot closures might be happening during game times. UBC Parking staff will be stationed at various key points near the vicinity of the Arena to answer any parking related questions during lot closures.

Parkade Closure on Friday February 10:

Thunderbird Parkade – the parkade will be closed to all traffic at 5:00am and re-opened to traffic before the start of the event. A daily flat rate of \$10 will be charged on entry to all patrons. Patrons not wanting to pay the event rate will be directed to park in an alternate parking area. The parkade will not be closed at 5:00am on Saturday or Sunday but it will be staffed at 7:00am. Event rate will be in effect during these three days.

Lot Closures starting on the evening of February 09 to February 12:

B4 Lot – located on Agronomy Road between Main Mall and West Mall.

O Lot – located on Agronomy Rd between Main Mall and West Mall.

Osborne Lot – located between Doug Mitchell Arena and Osborne Gym.

Wright Field Lot – gravel portion west side of the Allan McGavin Sports Medicine (John Owen Pavilion)

C2 Lot (partial closure) – located on Agronomy Road and Health Science Mall same block as Technology Enterprise Facility 3 (TEF3). Daily parking rate in effect.

Please note: We do not wish to hinder pick up or drop off of students attending Eaton Arrow Smith School nor patrons needing to use the Impark Lot underneath TEF3.

Complementary short term parking stalls will be made available to parents. See map on communication piece for more details.

Please use the Agronomy Road entrance/exit for pickup and drop off, and for access to the Impark lot.

The above surface parking lots (except Thunderbird Parkade) will be closed the evening of February 09, 10 and 11. Unauthorized vehicles will be ticketed and/or towed at vehicle owners' expense.

West Parkade:

Contingency - only if B4 & O Lots fill to capacity.

Communication signage will be posted in all affected lots by the UBC Parking Department the week of January 23. Alternate parking will be available at North or West Parkade.

UBC Parking staff will be managing the traffic flow and any road or lane closures to help alleviate traffic congestion.

Please distribute the communication piece and information to all groups that may be affected.

We apologize in advance for any inconvenience this may cause.
