1. Clinical Research Day 2008 – call for suggestions

November 14, 2007

Department of Psychiatry,
University of British Columbia

Re: Clinical Research Day 2008

We are planning to hold a Research Day next year at the end of May or the beginning of June. The day will have clinical neuroscience focus and most of basic science research presented in the form of posters. We would like to include a dinner for clinical faculty the same evening. The location for this event will likely be downtown.

At this time, we are asking for suggestions in terms of themes and topics for the research day. Please forward your suggestions to myself or my secretary Loretta Musselwhite at one of the following email addresses, yatham@exchange.ubc.ca, musselwh@exchange.ubc.ca or we can be contacted at the number below.

Sincerely,

Lakshmi N. Yatham, M.B. B.S., F.R.C.P.(C)
Professor of Psychiatry
Division of Mood Disorders, University of British Columbia
Director, Mood Disorders Clinical Research Unit, UBC Hospital

2. Do You Do Outreach?

The Postgraduate training program needs to know which Faculty are currently doing Outreach to distant communities (regardless of sub-specialty) so that Residents can know who they should

approach to complete outreach visits. If you are doing Outreach currently could you please e-mail Jon Fleming (j.fleming@ubc.ca) and let him know the community you visit and the frequency.

Thank you.
