2255 Wesbrook Mall, UBC

Light Lunch Provided

For more information or if you would like to meet with
Dr. Ron Dahl, contact Diane Parsons, ph 604 822 0379
diane.parsons@ubc.ca

2. Professional Development Reimbursement for Academic Faculty Members

We are pleased to announce that as of October 2007 Faculty Members and their administrators are able to access PDR balance information on line. For details on the launch please refer to the [memo of October 15th from the Director of Financial Services](#).

Please visit this website as well for full details:

http://www.hr.ubc.ca/faculty_relations/compensation/pdr_balance.html

3. Call for Papers Behavioral Sciences and the Law

Special Issue on The Neuroscience of Decision Making and the Law

Behavioral Sciences and the Law announces a forthcoming special issue on the neuroscience of decision making and the law, to be co-edited by Steven K. Erickson, J.D., LL.M., Ph.D. and Alan R. Felthous, M.D., Manuscripts that address the following issues are especially welcome: Neuroscience and neuroimaging results of areas of moral judgment; the impact and limitations of such findings on legally relevant behavior; neuropsychiatric, neuropsychological and genetic disorders which impinge on intent and responsibility. Original research reports and forensically relevant literature reviews will be included.

In addition to clinically relevant manuscripts examining the above issues, legal reviews and scholarly essays examining the interplay between relevant scientific findings and historic or contemporary legal norms are also sought. In particular, essays which explore the development of concepts of intentionality and responsibility in light of salient scientific findings are welcome. Such manuscripts should incorporate recent findings from the neuroscience field.

Manuscripts could be 20 to 30 doubled-spaced typewritten pages and should comply with the editorial and referencing style of the most recent edition of the Publication Manual of the American Psychological Association or the Harvard Law Review's Association's The Bluebook: A Uniform System of Citation (but not both). Specific style requirements can be found in a recent copy of the journal, or can be obtained via direct communication with any of the journal's editors.

To expedite processing, submit the manuscript electronically. Authors should use e-mail attachments, with the manuscript readable in Windows-based MS Word or Word Perfect formats. If using postal mail, submit manuscript in triplicate with two copies prepared for blind review, to either of the special issues editors, Steven K. Erickson, J.D., LL.M., Ph.D. or Alan R. Felthous, M.D. who can be reached at:

Steven K. Erickson, J.D., LL.M., Ph.D.
MIRECC Fellow
Yale University/VA Healthcare Network
950 Campbell Ave, Building #35
West Haven, CT 06516
Tel: (203) 321-5298
e-mail: steven.erickson@yale.edu

Alan R. Felthous, M.D.
Division of Forensic Psychiatry
Department of Neurology and Psychiatry
Saint Louis University School of Medicine
1438 S. Grand Blvd.
St. Louis, MO 63104 USA
Tel: (314) 977-4825
Fax: (314) 977-4876
e-mail: felthous@slu.edu

The deadline for submissions is July 1, 2008.

4. R&D partnering opportunity with India – deadline November 26, 2007

ISTPCanada and GITA, India are proud to announce the first ever Canada-India Science and Technology Cooperation Fund

We are pleased to announce the first Call for Proposals for Canada-India Science and Technology Cooperation!

ISTPCanada and Global Innovation & Technology Alliance (GITA), India will jointly fund R&D collaboration projects and Partnership Development Activities engaging both Canadian and Indian organizations. Basically the R&D project has to have the active participation from both a Canadian and Indian company. Collaborations with academia and R&D institutes in both countries will enhance the quality of the proposal. The Program also encourages exchange of young researchers between the 2 countries under the R&D projects. Apart from excellence for innovation, the Program also looks for sound commercialization value/plan for the resulting product/process from the R&D project.

The proposed Partnership Development Activities could be seminars, conferences, symposia, workshops, etc, aiming at generating new or expanded research and technology-based partnerships between Canada and India.

Important dates

For Collaborative R&D Projects:

Closing date for Expression of Interest (EOI) – Thursday November 26, 2007

Closing date for Full Proposal – Wednesday January 16th, 2008

5. UBC Medicine & Dentistry Art Show 2007-08 - deadline December 1, 2007

UBC MEDICINE & DENTISTRY ART SHOW 2007-2008

The UBC Medicine and Dentistry Art Show will take place on Saturday, January 26, 2008 and Sunday, January 27, 2008 with an opening reception on the evening of January 26. If you would like to exhibit, please submit a maximum of three pieces for display. Due to space constraints and the number of submissions, it may be necessary to limit the number of pieces on display. Therefore, we may be unable to exhibit all pieces that are submitted. We will accept any form of visual art, including pencil, watercolour, oil, sculpture, photography, etc. All pieces must be framed and ready for display. Please include the title, medium and dimensions of each piece in the spaces provided below. If possible, also include a digital image of each piece. Thank you for supporting the art show. We look forward to working with you over the coming months.

Artist Information:

Name: _____

Student/Resident/Alumni/Faculty: _____

Address: _____

6. Celebrate Research Week 2008: Call for proposals

IMPORTANT: An opportunity to showcase UBC research!
Please circulate to all interested parties in your department, and respond as soon as possible with your proposed events.

The eighth annual **Celebrate Research Week (CRW)** will be held March 8 – 15, 2008. Since CRW 2008 falls within UBC's centenary year, your event will be incorporated into the centenary campaign and receive more coverage and focus than year's past. This year's theme is:

It's yours: A legacy of research excellence.

The aim of this Week is to draw attention, both inside UBC and the community at large, to the outstanding research in all fields that is continually in progress at UBC and to generate true understanding and appreciation of the benefits – social, economic, educational – that the generation of new knowledge and understanding can bring to the region, the province and the country. CRW is directly in-line with many Trek 2010 goals including those found in research and community.

Celebrate Research Week encompasses all disciplines. We would like representation from a wide range of faculties, departments, centres, institutes and hospitals during this multidisciplinary week. Past events have included open houses, poster sessions, panel discussions, colloquiums, lectures, and conferences. We would also like to hear about any events you might already have generated which would appropriately fit into this week.

Events will take place at all UBC campuses including Point Grey, our teaching hospitals, Robson Square and UBC Okanagan.

Attached you will find a comprehensive background document, which explains participation. All events will be publicized in the Celebrate Research Week 2008 campaign. From our experience, the sooner we confirm the Week's events, the better the attendance at the events. We look forward to an early response.

The deadline for receiving event submissions is **Friday, December 14**. Space at Robson Square is booked on a first come, first serve basis.

Check out the website www.celebrateresearch.ubc.ca for 2007 events and the latest 2008 information.

Please email the both Sid and Cassie for event confirmation and more information:

Sid Katz
