#1. Presentation by Dr. Jacques Barber - March 7, 2008

What do Therapists and Patients contribute to Psychotherapy Outcome?

Presenter:

Jacques P. Barber, Ph.D.
Professor
Department of Psychiatry
University of Pennsylvania School of Medicine

Candidate for the UBC Mental Health Institute's Endowed Chair in Psychotherapy

Date:

Friday March 7, 2008

Time:

12:00 – 1:00 p.m.

Place:

Detwiller Pavilion, UBC Department of Psychiatry, Room 2N A/B

Lunch will be served

If you would like to meet with Dr. Barber individually either before or after his talk please contact Clara Hungr at 827-4105 or clhungr@interchange.ubc.ca to arrange an appointment time.

#2. Announcements and Funding Opportunities Paramedic Academy Call for Researchers Upcoming CIHR Competitions

Please find for your information and forward as appropriate.

1. Paramedic Academy Call for Research Associates

The Paramedic Academy is actively seeking researchers who are interested in becoming a member of the Applied Research Community as a Research Associate. If you are interested please find the attachment above.

2. Upcoming CIHR Competition – STIHR Funding and Training Grant

The Michael Smith Foundation for Health Research is undergoing an external review of its entire personnel program – scholars and trainees. The rationale for the review is to assure the MSFHR Board that MSFHR has the best strategies, structures, processes and human resources in place to demonstrate value for money. Pending the outcome of the review (which is scheduled for May 2008), the MSFHR Board can make no budgetary commitments to initiatives such as partnership with CIHR on its Strategic Training Initiatives in Health Research call.

MSFHR will continue to run our trainee competition this Fall and Junior Graduate Students, Senior Graduate Students and Post-Doctoral Fellows, affiliated with STIHRs are eligible to apply to our competition. If you require further details, go to www.msfhr.org

#7. Broadcast E-mail from Dr. Stephen Toope: RCMP Announces Resolution of Threats to Bioscience Building

To the UBC Community:

The RCMP announced today that a suspect has been identified and that criminal charges have been laid regarding threats that disrupted thousands of lives at our Vancouver campus on January 30 and again on February 6 of this year.

A university is by its very nature a place of openness and community. Vigorous and civil discussion of ideas is essential and depends absolutely on an atmosphere of safety and security, the disruption of which is a matter of the utmost gravity.

Our community's feeling of relief today is accompanied by gratitude to the RCMP for the speed and professionalism of their response and investigation.

Please see our website at www.ubc.ca for further details, including the RCMP media statement.

Sincerely,

Stephen J. Toope
President and Vice-Chancellor

The goal of Applied Research in the Paramedic Academy is to improve patient care by advancing the practice of justice and public safety education. Our research seeks to provide practical advice and solutions to issues of interest to EMS educators and providers, specifically to:

- Develop the capacity, competencies, and infrastructure to initiate, conduct, and disseminate Applied Research related to EMS education and EMS practice.
- Contribute to the provision of timely, effective, and efficient patient care.
- Contribute to the advancement of EMS education.

CALL FOR JIBC PARAMEDIC RESEARCH ASSOCIATES

The Paramedic Academy is actively seeking researchers who are interested in becoming a member of the Applied Research Community as a Research Associate. These individuals will bring knowledge and expertise in the fields of pre-hospital and emergency patient care. We are looking for individuals who have:

- a track record in undertaking applied research within the medical field
- a doctoral or masters degree, and
- practical experience within pre-hospital and emergency patient care

Research Activities will include:

- Developing new research proposals that fit within the JIBC research mandate.
- Leading or collaborating on research activities initiated or undertaken by JIBC faculty/instructors.
- Providing expertise/advice on research activities, projects or proposals.

If you are interested in this position please send your CV and a covering letter to Ron Bowles at Applied_Research@jibc.ca.

Moving
"Beyond Beds"

in the Provision of Tertiary Mental Health Care for
Adults and Older Adults in British Columbia

April 16-18, 2008
Harbour Towers Hotel, Victoria, BC

Sponsored by:

The Vancouver Island Health Authority is pleased to host the second annual BC Tertiary Mental Health Conference.

The Conference will bring together a wide range of professionals, consumers and community partners. Through a series of keynote presentations and panel discussions, we will review how far we have come in moving "Beyond Beds" in our provision of and planning for adult and older adult tertiary mental health services.

As well, the Conference will provide a rare opportunity to meet and reflect together on emerging best practices and as we do so, consider the Question: *Is there an appetite for further province-wide networking at the tertiary level of care?*

--- OPENING REMARKS ---

Howard Waldner

President and Chief Executive Officer, VIHA

--- KEYNOTE ADDRESSES ---

PANELS and CONFERENCE FACULTY

BEYOND BEDS

Tertiary Care Services for the severely mentally ill can be conceptualized to include institutional and community based dimensions, both of which are vital and well-described components of any system of care, addressing the needs of both the older adult and adult tertiary patient. This panel will focus on examining clinical, administrative and governmental aspects of providing the necessary frameworks of this service delivery in an era of care that is quickly moving “beyond beds”.

Panel Chair: **Dr Ian Musgrave**, MD FRCP(C); Clinical Director, Tertiary Care and ACT Services, VIHA; Clinical Director, Seven Oaks Tertiary Care Facility, Victoria

Panel Members:

Dr Carol Ward, MD, FRCP(C); ABPN (Ger Psych); Geriatric Psychiatrist, Tertiary Mental Health Services, Interior Health Authority; Clinical Assistant Professor, Division of Geriatric Psychiatry, UBC

Penny Jones, RPN, Psychosocial Rehabilitation Practitioner, Coordinator of Iris House, Recovery & Residential Services, NHA MHAS; Instructor – College of New Caledonia; Board of Directors – Canadian Mental Health Association, Prince George Branch

Gerrit van der Leer, Director, MHAS, Health Authorities Division, MoH

Kelly Reid, Manager, Tertiary and Residential Care, VIHA

TERTIARY UTILIZATION

Who is the tertiary client and how can we be sure that the right patient gets the right service at the right time? What intake and assessment processes will identify the tertiary client profile, or is this in fact an artifact of the Provincial Mental Hospital system or perhaps due to gaps in the secondary system? Once patients are in a tertiary program, what processes will ensure that the patient is discharged from the program at the right time, to the right place? These are some of the key issues the Panel will discuss, along with audience participation.

Panel Chair: **Dr Michael Cooper**, Head of Division of Geriatric Psychiatry, VIHA; Clinical Assistant Professor, Division of Geriatric Psychiatry, UBC

Panel Members:

Peter Dawson, RN, MSN; Program Coordinator – BC Neuropsychiatry Program

Dr Les Sheldon, B.Sc (Pharm), MD, FRCP(C); Geriatric Psychiatry Program, Mt St Joseph Hospital

Dr Paul Dagg, MD, FRCP(C); Clinical Director, Tertiary Mental Health Services, Interior Health Authority; Clinical Associate Professor, Department of Psychiatry, UBC

THE TERTIARY CLIENT and the LAW

"Soft Forensic" or "Just Plain Hard Tertiary?"

The report of the Riverview Review Panel notes that Regional Health Authorities are experiencing a subset of patients who present with aggressive behaviours. Adult patients have been referred to by some as 'soft forensic'. In Ontario, older adults in residential care settings who respond to their environments by aggressing against other residents have been the focus of considerable attention by the law and the media. This Panel will explore the relationship between the tertiary client, the tertiary level of care; and the law as well as solutions for the management of aggression within tertiary programs, and the community at large.

Panel Chair: Dr Robert Miller, Medical Director, Mental Health & Addictions Services & Department Head, Psychiatry, VIHA

Panel Members:

Dr Joseph A. Noone, Medical Manager of Psychiatric Intensive Care Unit, Riverview Hospital; Director, Code-Wide Training, Riverview Hospital; Medical Director, Adult Tertiary Psychiatry Program, Riverview Hospital; Clinical Professor of Psychiatry, UBC

Dr Martha L. Donnelly, MD CCFP, FRCP(C); Director, Division of Community Geriatrics, Mount Pleasant Legion Professor of Community Geriatrics, Dept. of Family Practice, UBC; Geriatric Psychiatrist, Head of Division of Geriatric Psychiatry, Dept. of Psychiatry, UBC

Insp. John Ducker, Acting Deputy Chief of Police, Victoria Police Department

Angus Monaghan, Senior Manager, Regional Clinics, Forensic Psychiatry

Gerrit Clements, BA (Calgary), LL.B (Alberta); Adjunct Professor, Health Information Science Faculty, UVic

ART SALE

Art Programs offer opportunities to explore arts and culture as tools for reclaiming power, through making choices that will bring strength rather than harm. In its healing aspects, it is related to art therapy. It is built on the idea that a creative life is a healing life, which keeps closely connected to a healthy imagination and the spiritual dimension. **The Seven Oaks Art Program** will present their latest show "Sense of Mind", facilitated by the Activities Program at Seven Oaks. **The Trent Street Art Studio** will present pieces created by mental health consumers in the Open Studio and The Artists in Residence Program. These programs are facilitated by The BC School of Art Therapy and funded by VIHA. Come and join us to witness and nurture some of the most basic human needs for personal fulfillment and empowerment.
