Reproductive Mental Health

Academic Rounds

Mother’s Mood Matters
Developmental effects of prenatal exposure to SSRI antidepressants

Speaker: Dr. Tim Oberlander
Developmental Pediatrician; BC Children’s Hospital

Learning Objectives:
- Understand infancy/childhood developmental effects of in-utero SSRI exposure
- Understand impact of prenatal maternal mood on early infant/child development and behaviour
- Discuss why developmental risks exist for some but not all children with prenatal SSRI exposure.

Wednesday, April 22nd 2015
12:00-1:00 PM

Join Via Telehealth
If you would like to attend via Telehealth, please respond to kthomaspeter@cw.bc.ca by April 16th 2015 with the following information:
1) Your location (city/hospital) and preferred Telehealth site/room
2) A contact person for your site who will be responsible for:
   - Arriving 15 minutes early to participate in the test call
   - Distributing slides, evaluation materials and a sign in sheet

The Reproductive Mental Health Academic Rounds are a self-approved group learning activity (Section 1) as defined by the Maintenance of Certification program of the Royal College of Physicians and Surgeons of Canada.
