PSYCHOSIS DAY

Friday, September 30, 2016
Theatre One, Health Sciences Centre, 3330 Hospital Drive NW, Calgary, AB

COURSE OVERVIEW
The educational vision of Psychosis Day is to disseminate new research findings and state of the art clinical practices to best inform the delivery of care for persons suffering from psychotic disorders and their families. Psychosis Day is a program developed as a partnership between researchers, clinicians and those with the lived experience of schizophrenia and other psychoses. It offers continuing professional development to physicians and other health professionals as well as public education.

COURSE OBJECTIVES
The intent of the conference is for learners to:

• know how to identify and manage persons who are ultra high risk for developing psychosis
• identify current recommendations for the use of antipsychotic medications in the management of persons with first episode psychosis and recurrent psychotic disorders
• implement management strategies for common clinical problems that emerge in the management of persons with schizophrenia and other psychotic disorders
