Guest Speakers  

Vladimir Maletic, MD, MS  
Clinical Professor of Neuropsychiatry and Behavioural Science  

Topic  

The Role of Norepinephrine in the Healthy Brain and Psychiatric Illness  

Learning Objectives  

1. Discuss the role(s) of the norepinephrine (NE) system in normal behaviour  
2. Discuss the role(s) of the NE system in the pathophysiology and treatment of psychiatric symptoms/illnesses  
3. Understand how drugs with NE antagonist actions may contribute to therapeutic benefits in psychiatry  

Moderator: Dr. Diane Fredrikson  

*This event is an accredited group learning activity as defined by the maintenance of Certification Program of the Royal College of Physicians and Surgeons of Canada*
