Taking your academic half-day virtual

About this workshop:
This workshop is for faculty who are transitioning their in-person academic half-day presentations to a virtual setting. Faculty who teach in UGME, PGME, and the Health Professions are welcome to attend to learn about the best practices for presenting and engaging learners over videoconference in an academic-half day or similar teaching context.

Date: June 24, 12-1:15pm
Facilitators: Dr. Kyla Hildebrand, Sharon Doucet
Location: Zoom (link will be emailed)

Register here

By the end of the session, participants will be able to:

• Reflect on the transition from face-to-face academic half-days to virtual as a presenter and participant
• Optimize their teaching approach to the virtual learning environment
• Manage group dynamics and etiquette in a virtual setting

About the facilitators:

Dr. Kyla Hildebrand is a Clinical Assistant Professor and Program Director to the Division of Allergy & Immunology, Department of Pediatrics, BC Children’s Hospital. Dr. Hildebrand completed a Master of Science in Community Health (Health Practitioner Teacher Education Program) at the University of Toronto and was the 2010 recipient of the RCPSC Fellowship for Studies in Medical Education. She is very experienced in facilitating academic half-days over videoconference that connects participants across the country.

Sharon Doucet is a senior instructional designer with the Office of Faculty Development where she manages and develops evidence-based resources for medical education and teaching. She completed her Master of Arts in Science and Technology Studies at UBC where she focused on technology enabled teaching.
