We invite all preceptors who are or will be teaching clinically in virtual settings, to join us for an evening of interaction and discussion with colleagues and a panel with experience in this area.

As this is the second session on this topic and some of you have already been teaching virtually, we look forward to exploring your experience, your tips, tricks, successes and challenges. We are all relatively new to this setting and are learning together; you do not need any experience in teaching virtually to join this session.

Learning Outcomes:
By the end of the session, participants will be able to -

- Reflect on their role as preceptors during the transition from in-person to virtual clinical teaching
- Optimize their teaching approach to the virtual clinical environment
- Identify potential opportunities, challenges and resources as they navigate virtual clinical teaching environments
- Create a network of preceptors who teach in virtual clinical environments

Panelists:
Dr. Krystine Sambor, Medical Director of the North Shore Medical Group, Peer Mentor with the Doctors Technology Office, Faculty Development Lead Coastal Residency
Dr. Adrian Yee, Director of Curriculum, MD Undergraduate Program, Hematologist BC Cancer Agency
Dr. Nawaaz Nathoo, Opthamology Lead, MD Undergraduate Program (Y1/2), UBC Faculty of Medicine
Dr. Brent Ohata, Rheumatologist, UBC Faculty of Medicine
Dr. John Pawlovich, Clinical Professor, Department of Family Practice; e-Health theme lead, UBC Faculty of Medicine
Dr. Kelly Saran, Clinical Assistant Professor, Department of Psychiatry, UBC Faculty of Medicine
Dr. Renée Janssen, Clinical Instructor, Division of General Internal Medicine, St. Paul’s Hospital, UBC

This event is an Accredited Group Learning Activity (Section 1) as defined by the Maintenance of Certification Program of the Royal College of Physicians and Surgeons of Canada, and has been approved by UBC CPD for up to 1.5 MOC Section 1 Group Learning credits. This program meets the certification criteria of the College of Family Physicians of Canada and has been certified by UBC CPD for up to 1.5 Mainpro+ Group Learning credits.
