

THE UNIVERSITY OF BRITISH COLUMBIA

Department of Psychiatry

Faculty of Medicine

2020-2021

## ELIGIBILITY DESCRIPTION

### Clinical Faculty Payments for Postgraduate Clinical Teaching with Patient Care

#### Eligibility criteria as per the PGME Funding Guidelines:

Members of UBC clinical faculty

- APP Physicians may claim for the teaching hours that are in EXCESS of those provided in their APP contract. (Support documentation to be provided by the Departmental/Division Chair and/or Program Director)

#### Who is NOT eligible?

- Faculty who are in CASC arrangements
- Faculty who have a full time salary arrangement with the hospital or University
- Grant tenured faculty
- Faculty paid by third parties with contracts that contain language including "concurrent teaching"

#### Guidelines:

Payment for supervision is based on the **actual time taken to teach about the case** being supervised and this will vary from setting to setting.

The supervision must be either face to face (including videolink) or by a specific phone call to discuss the case (availability by phone does not count). Payment is **made only once for Residents taught as a group**. Only one supervisor at a time can be paid for a single Resident; if you are co-supervising please ensure your colleague does not bill for the same teaching time.

Payment is based on **teaching outside of regular patient care**. **If you receive payment for patient care (sessional, salary or fee for service etc) you CANNOT also bill for supervision time**. For example, you watch a Resident interview for 50 minutes and present the case for 10 minutes and then have a 10 minute discussion about the case and associated issues. You can only bill for 20 minutes (10 minutes presentation plus 10 minutes discussion) and not for the 50 minute interaction if you receive any payment from any source for the patient contact.

If you are uncertain about your eligibility for these funds please contact the Office of Clinical Faculty Affairs.
