CAREER OPPORTUNITY

Post-doctoral Fellow

A post-doctoral position is available within the Department of Psychiatry to work in a research lab which focuses on understanding brain mechanisms associated with psychopathology in general population and clinical samples. The lab has access to exceptional multidisciplinary research facilities including structural and functional MRI, PET, and TMS.

Applicants should have a strong background in human neuroimaging and neuroscience and must have received a PhD in a relevant field. Candidates with successful publications in the fields of human neuroimaging and and/or computational modeling are encouraged to apply. The position requires experience with (1) Plan, design and conduct research projects using a range of structural and functional magnetic resonance imaging methods (2) Familiarity with packages for imaging analyses (e.g. SPM, AFNI, etc.) and packages for statistical analyses (e.g. R) ; (3) skills in MATLAB, Python (4) modelling of neuroimaging data together with clinical, cognitive and genetic data. Salary will be commensurate to prior experience.

**The anticipated start date is flexible.** This is a twelve-month appointment with the option of renewal for a further year.

**Department of Psychiatry**

**A brief** letter of application to comprise a description of research interests and career goals, a detailed curriculum vitae (CV) and the names of three references, should be directed to:

**Dr. Sophia Frangou, MD, PhD, FRCPsych**
Professor of Psychiatry, Research Chair in Brain Health, Associate-Head for Research Department of Psychiatry
University of British Columbia
2255 Wesbrook Mall
Vancouver, BC V6T 2A1
E-mail: sophia.frangou@ubc.ca

Please submit both application letter and CV by email only.

**Closing date: April 30, 2022**

UBC hires on the basis of merit and is committed to employment equity. All qualified persons are encouraged to apply. UBC is strongly committed to diversity within its community and especially welcomes applications from visible minority group members, women, Aboriginal persons, persons with disabilities, persons of any sexual orientation or gender identity, and others who may contribute to the further diversification of ideas. However, Canadian and permanent residents of Canada will be given priority.
